

# Pay-As-You-Go with SEC's PrePay!

**NEW!**

**How does it work?** PrePay allows members to pay in advance for their electricity – similar to filling your vehicle with gas. As electricity is used, the prepaid account balance decreases.

**How do I 'refuel?'** Replenish your account balance at any time by using the SmartHub app or by visiting the outdoor payment kiosks, available 24/7, at all SEC district office locations. During regular SEC office hours, members have the option to pay via phone or office visit.

**YOU** are in control: No due dates, security deposits, late fees or reconnect fees!
